Content Review Form

Guidelines

- The Standards for Integrity and Independence require that all continuing education content be free from commercial bias.
- Educational materials that are a part of a continuing education activity such as slides, abstracts and handouts cannot contain any logos, advertising or product-group message.
- The content or format of a continuing education activity or its related materials must promote improvements or quality in health care and not a specific propriety business interest of a commercial interest.
- Presentations must give a balanced view of therapeutic options. Use of generic names will contribute to this impartiality. If the educational material or content includes trade names, where available trade names for products of multiple commercial entities should be used, not just trade names from a single commercial entity.
- Faculty must be responsible for the scientific integrity of their presentations.
- Any information regarding commercial products/services must be based on scientific (evidence-based) methods generally accepted by the medical community.

Title of Talk

Inhale the Latest: New Horizons in Lung Cancer Drugs

Speaker Name(s)

Katlyn Mulhall

Reviewer Name

Emily Sekkath Veedu

After reviewing content for the above CE activity, please respond to each of the following statements and provide your overall recommendation.

Financial disclosure is declared by the presenter on a slide or disclosure statement in the educational material

Yes
