<https://uky.zoom.us/j/88570879112?pwd=2z5HtS0XKZDp9WW6fT6HkrJE4sBKbc.1>

Password: 382410

**IMPORTANT - Please see the next page for instructions to register for this course!!
After this session participants will be able to:**

- Identify in utero imaging of lymphangioma, including differential diagnosis and prognostic findings
- Describe epidemiology, in utero diagnostic testing, and pregnancy management of fetus impacted by lymphangioma
- Discuss the important considerations for neonatal resuscitation of an infant with suspected lymphangioma
- Describe the diagnostic and therapeutic approach to management of lymphangioma in the NICU
- Explain the ISSVA classification of congenital vascular anomalies and distinguish vascular tumors from vascular malformations, with emphasis on how this framework informs pathologic interpretation and potential clinical management.
- Identify the defining gross and microscopic features of vascular malformations (capillary, venous, lymphatic, arteriovenous, and combined forms) and common congenital/early childhood vascular tumors (infantile hemangioma, congenital hemangioma)..

Accreditation

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, University of Kentucky HealthCare CECentral is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

AMA
