

The Octopus Model

WHERE MISSION MEETS ADAPTABILITY.

**BUILDING HEALTHCARE AROUND PEOPLE, NOT PLACES:
A PEER-DRIVEN APPROACH TO
INTEGRATED CARE IN RURAL COMMUNITIES**

At the HEARTS of It All

- What did the **community** teach us?
- What happened when **we listened**?
- What changed when **we adapted**?
- **Why does this work?**

Responsiveness, Results, Replication

- What does the **science** tell us?
- What makes it **sustainable**?
- How can others **replicate it**?
- Where are we **now**?

"Adaptability isn't mission drift.

Sometimes it's what mission looks like in practice."

- Rev. Michelle Mathis
